

Seminars in Biomedical Neurosciences 2016 - 2017

Place Ospedale Civico di Lugano, Biblioteca Neurocentro, 1st Floor
Time Wednesday, 17h30 – 18h30

7th September 2016	Role of microRNAs in temozolomide resistance of glioblastoma Prof. Dr. pharm. Erik Vassella, Head of Molecular Pathology, Department of Pathology, University of Bern Host: Prof. Dr. M. Reinert, Neurosurgery NSI
19th October 2016 *	Beta amyloid and memory: new insights Prof. Ernesto Fedele, School of Medical and Pharmaceutical Sciences, Center of Excellence for Biomedical Research, University of Genoa Host: Dr. S. Galati, Neurology NSI
16th November 2016	Update on pathophysiology and therapy of migraine Dr. med. Niklaus Meier, Neurology Dept. University Hospital Bern Host: Prof. Dr. A. Kaelin NSI
14th December 2016	Computer-assisted image analysis in neuromedicine Prof. Dr. Roland Wiest, Neuroradiology Dept. University Hospital Bern Host: Dr. E. Pravata, Neuroradiology NSI
18th January 2017	Transcranial magnetic stimulation (TMS) as an approach to study visuospatial attention and treat its disorders PD Dr Dario Cazzoli, SNSF Ambizione Fellow, ARTORG Center, University of Bern Host: Prof. Dr. A. Kaelin NSI
15th February 2017 *	Levodopa-induced dyskinesia in Parkinson Disease and sleep: what is the link? Dr. S. Galati, Basal Ganglia Physiology Group LBN/NSI Host: Prof. Dr. A. Kaelin NSI
15th March 2017	Outcome after stroke in children and young adults Dr. med. Barbara Goeggel-Simonetti, capo clinica, Neuropediatria EOC Host: Prof. Dr. A. Kaelin NSI
12th April 2017 *	The role of protein quality control in motoneuron diseases Prof. Angelo Poletti Ph.D. Department of Pharmacological and Biomolecular Sciences, Centre of Excellence on Neurodegenerative Diseases, Uni. of Milan Host: Dr. P. Paganetti LBN/NSI
26th April 2017 *	Cell-based studies of proteins involved in neurodegeneration Chiara Foglieni, PhD student Neurodegeneration Group, LBN/NSI Host: Dr. P. Paganetti LBN/NSI
10th May 2017 *	Cellular complexity underlying Alzheimer's disease Prof. Lawrence Rajendran, Founder, ScienceMatters, Velux Stiftung Professor, Systems and Cell Biology of Neurodegeneration, IREM, University of Zurich Host: Dr. P. Paganetti LBN/NSI
21st June 2017 *	Microglia and neuroprotection: from in vitro studies to immunomodulatory therapeutic strategies Prof. Barbara Monti, Dipartimento di Farmacia e Biotecnologie Università degli Studi di Bologna, Italia.. Host: D. Piffaretti, PhD Student, LBN and Neurosurgery/NSI

* These seminars are recognized as continuing education in animal experimentation in Ticino.
For more information, please contact Dr. A. Salvadè (agnese.salvade@eoc.ch)

Organization: Neurocenter of Southern Switzerland
Dr. Paolo Paganetti & Prof. Dr. med. Dr. phil. Alain Kaelin
